Billing and Insurance FAQ

Which insurance plans are accepted?

The clinic works with most major insurers in the region. Direct billing is available for plans on the approved insurer list kept at the front desk. For other plans, patients pay at the time of service and can claim reimbursement themselves.

Patients are responsible for any co-payment shown on their insurance card. The standard consultation co-payment is 20 percent, up to a maximum of 100 AED per visit.

What payment methods are accepted?

We accept cash, major debit and credit cards, and mobile wallet payments. Bank transfers are accepted for packages over 2,000 AED and must be confirmed before the appointment.

When will I receive my invoice?

An itemised invoice is given at the end of every visit. Duplicate invoices can be requested from the billing office and take 3 working days to prepare.

Can I get a refund?

Refunds are possible for services that were paid for but not delivered. Refund requests must be submitted within 30 days of payment. Approved refunds are returned to the original payment method within 14 working days.

What if my insurer rejects a claim?

If a claim is rejected, the billing office will contact you within 5 working days. You may either pay the balance directly or ask us to resubmit the claim with additional documents. We cannot resubmit a claim more than twice.
